of water heretofore appropriated under (Identify existing rights by Permit, Certificate, Proof or Claim Nos. If Decreed, give title of Decree and identify right in Decree.)

Permit No. 81408 (PW-2)1. The source of water is Underground

Name of stream, lake, underground, spring or other sources.

2. The amount of water to be changed 20 AF

Second feet, acre-feet. One second foot equals 448.83 gallons per minute.

3. The water to be used for Drilling water for drilling production wells for the mine(MINING & MILLING)

Irrigation, power, mining, commercial, etc. If for stock, state number and kind of animals. Must limit to one major use

MG

4. The water heretofore used for mining and milling

If for stock, state number and kind of animals.

5. The water is to be diverted at the following point (Describe as being within a 40-acre subdivision of public survey and by course and distance to a found section corner. If on unsurveyed land, it should be stated.)

within the SW 1/4 SW 1/4, Section 17, T.35N., R.30E., M.D.B.&M. (unsurveyed), or at a point from which the SE corner of  
Section 32, T.35N., R.29E., M.D.B.&M., bears S64°49'37.17" E, a distance of 10506.5 feet.

7. Proposed place of use (Describe by legal subdivisions. If for irrigation, state number of acres to be irrigated.)

Water to be used for drilling water for drilling boreholes/wells located within:  
Sections 8-11, 14-17, and 21, T.35N., R.30E., M.D.B.&M. (unsurveyed)

8. Existing place of use (Describe by legal subdivisions. If changing place of use and/or manner of use of irrigation permit, describe acreage to be removed from irrigation.)

(Previously filed under 81228) Sections 1-4, 9-12, T.34N., R.29E.  
Sections 12-14, 23-27, 34-36, T.35N., R.29E.  
All of T.35N., R.30E.  
Sections 2-11, T.34N., R.30E.  
M.D.B.&M. (unsurveyed)

9. Proposed use will be from January 1st to December 31st of each year.  
Month and Day Month and Day

10. Existing use permitted from January 1st to December 31st of each year.  
Month and Day Month and Day

11. Description of proposed works. (Under the provision of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) (State manner in which water is to be diverted, i.e., diversion structure, ditches, pipes and flumes or drilled well, pump and motor, etc.)

The POD is being transferred to an existing 10" test well (PW-9) that was drilled as a potential new potable supply for the mine. A temporary pipeline will be constructed to convey drill water to each of the proposed borehole / well locations.

12. Estimated cost of works \$30,000 for temporary setup of piping and pumping

13. Estimated time required to construct works 2 days for each pipeline from existing wellhead  
If well completed, describe well.

14. Estimated time required to complete the application of water to beneficial use 3 months

15. Provide a detailed description of the proposed project and its water usage (use attachments if necessary): (Failure to provide a detailed description may cause a delay in processing.)

The POD is being changed from a production well that supplies water to the mine, to a recently installed unpermitted test well to supply water for drilling activities related to groundwater resource exploration and development. Approximately 200 gpm will be required for 5-7 days per borehole. The water right will revert back to the production well under Permit No. 81408 (PW-2) upon completion of drilling activities.
